Modern Banking

The old autocracy of the banking "profession" has given way these days to the more democratic idea of banking as a business.

This is a business Bank—offered by business men; doing business in a businesslike way—with none of the formalities that amounted to a hindrance. Instead we're right down "on the ground floor"—to work with you—cooperating as we can—to the fullest extent we may—not as a favor to you—but for mutual advantage.

Test us—you'll like the spirit and the service here.

Dr. Tigert Pleads for Funds For More Education in U. S.

By the Associated Press.

DES MOINES, Iowa, July 6.—Opposition to the inclusion of education as one of the subdivisions in the proposed federal department of public welfare was expressed by Dr. George D. Strayer of New York, chairman of the legislative committee of the National Education Association, at last night's session of the convention. The legislative committee, he reported, insists that if the department of public welfare is created education should be taken out of it, so that friends of education might be permitted to continue efforts for an independent department of education.

Dr. John J. Tigert, United States commissioner of education, said that "while the United States expends more money for educational purposes than any other nation, the amount is too small for the task of educating our people." He said there are more than seven million boys and girls in

this country who are not enrolled in schools. He urged that teachers be given better pay that they might be induced to continue in the profession, and that young people might be encouraged to take up teaching.

Dr. Tigert said that the greatest responsibility facing the teaching profession today is to make it possible for the country boy and girl to have a real education. "In spite of the progress made in consolidation," he said, "considerably more than two-thirds of the schools in America are still one-room buildings."

Alleges Huge Counterfeiting Scheme.
MEMPHIS, Tenn.—With the arrest of two men in Florida, Ark., on a charge of counterfeiting, following the arrests of three others in Little Rock recently on a similar charge, John C. Marsh, chief of the United States secret service bureau here, declared in a statement that thousands of dollars in spurious \$50 notes have been passed recently in Texas, Louisiana and Arkansas.

\$200,000 Fire Puts City in Darkness.
PHILADELPHIA, Pa.—Fire which gutted the generating plant of the Bristol Gas and Electric Company last night caused a loss of \$200,000. The entire city was in darkness and gas pressure cut off. The firemen kept the blaze from reaching a large gas storage tank in the rear of the plant and prevented an explosion.

Wound of State Charged.
SANDY HOOK, Ky.—Wes Sparks, Jr., was indicted here by the county grand jury on a charge of murdering Mary Sparks, a fourteen-year-old girl, who was killed in front of her brother while a gun battle was in progress and was mortally wounded.

Threaten to Lynch Negro.
GREENWOOD, S. C.—Pink Griffin, negro, who fled after shooting and killing Dr. Lawrence C. Lipscomb, prominent farmer, at his home near Ninety-Six, this county, yesterday following a dispute over mistreatment of a mule by Griffin, was captured near the scene of the homicide by a posse of six citizens and turned over to officers, who brought him to jail here. When a crowd of several hundred men gathered about the

prison the sheriff spirited the negro away to another county for safekeeping.

Coal Company Cuts Wages.
ALTOONA, Pa.—The Pennsylvania Coal and Coke Corporation, operating thirty-four bituminous mines in the central Pennsylvania field, announces that it has made a complete revision and reduction in all salaries, averaging about 20 per cent. A statement by officials said that only nine of the thirty-four mines are operating and those only from one to four days a week.

Carriers Would Buy Paper.
ASHEVILLE, N. C.—Purchase of the Rural Free Delivery News was recommended by the rural letter carriers of North Carolina, in annual convention here. It was proposed that the national organization conduct a campaign of buying the paper now controlled by private interests.

Farmer Shot Dead.
SPARTA, Tenn.—Roscoe Cooper, aged thirty-five, was shot and instantly killed near here by H. C. Snodgrass, Jr., son of former Representative Henry Snodgrass, following a quarrel, which is said to have originated while the men were in Sparta. The two men live on neighboring farms, and it is reported that after the killing in town Cooper left for home, secured a shotgun and pistol and returned to the road along which Snodgrass would pass.

Losses \$200,000 in Jewelry.
PHILADELPHIA, Pa.—Joseph Hascall, a New York jewelry salesman, reported to the police on arrival here that a case containing diamonds and other jewels valued at \$200,000 had been stolen from him on the train from New York. Hascall said he had the case beside him at his feet and that he missed it shortly after leaving Trenton.

Carpenters Return to Work.
CHICAGO.—Union carpenters have returned to work, pending a referendum vote on the proposed agreement between the associated builders and the carpenters' district council. The carpenters recently refused to become a party to the arbitration decision to be handed down by Joseph E. Sullivan in the wage dispute in the building industry that resulted in a lockout May 1.

Educator Boasts Advertising.
DES MOINES, Iowa.—Advertising is the most important factor in modern business, Dr. John J. Tigert, United States commissioner of education, declared in an address here. "Important as are the factors of labor, raw material, production, marketing and organization, none of these are as significant today as advertising," he said. "In 1911 the newspaper was the greatest medium of advertising and it still stands as such. It is the only medium that can be used for immediate effect."

Child Falls From "L" Platform.
NEW YORK.—Nine-year-old Anna Cunningham fell off a station platform in front of an elevated train in Brooklyn yesterday. In falling, she missed the approaching cars, dropped between the rim of the platform and the track, glanced off an electric feed wire and landed on the street pavement thirty-five feet below. She cried as a policeman picked her up. Physicians found her only injuries were three broken teeth and some scratches.

ALIEN FARMERS DROP.

68,502 Decrease Shown in Census Figures for Ten Years.

The number of foreign-born farmers in the United States has decreased by 68,502, or 15.5 per cent, in the last ten years, the census bureau announced today. The decrease, which was \$1,148 among German-born farmers alone, was due, it was said, to the large number of foreign-born who returned to their native countries during the war.

Native white farmers, who numbered 4,917,305 in 1920, constituted 85 per cent of the nation's tillers. The remainder were divided as follows: Foreign-born white, 81,054; negroes, 226,257; Indians, 16,213; Japanese, 6,849; Chinese, 628.

States showing the largest percentage of foreign-born white farmers in 1920 were: North Dakota, 46.7; Minnesota, 27.7; Connecticut, 23.7; Washington, 23.8; California, 23.1; and Wisconsin, 23.5.

The number of negro farmers increased 2.7 per cent during the decade. All but a little over 1 per cent were found in the southern states, where Japanese farmers settled almost exclusively in the far western states, the census showed. California led with 1,152; Washington had 699; Colorado, 321; and Oregon, 224.

Few people realize that the human heart is a marvelous pumping engine. Its work, from a man's cradle to his grave, is incessant and stupendous. Every single minute this wonderful engine pumps 750 cubic inches of blood. This means that the heart pumps over 225,000 cubic feet of blood every year.
